ANOTHER REPRIEVE FOR MURDERER ELIAS

The Tucson Citizen of Sept. 13 says: Twelve jurors were impaneled to appear at the court house today and after hearing the testimony of the witnesses subpoenaed, decide whether Teodoro Elias, convicted of the murder of Officer Katzenstein, on July 26, 1902, is sane or insane, but the jury had not even gotten together when the sheriff received a notification to the effect that Governor Brodie had granted an additional reprieve until March 25, 1905. The jury was then dismissed.

When seen by a Citizen reporter this morning, Sheriff Murphy had no statement to make regarding the matter. Attorney Orfila stated that he (Orfila) had written the governor stating that the matter would be brought up before a sheriff's jury today, but that he had not requested an additional reprieve.

The same secrecy has been attempted in this stage of this case that was tried when the first reprieve was granted. The district attorney was notified by telephone after 9 o'clock this morning that a jury had been summoned to determine the condition of Elias' mind. Within a few minutes the district attorney started for the court house, but was met by the sheriff in the court house yard, who informed him that the jury had been dismissed, as the governor had further reprieved the convicted murderer until March 25 of next year.

It is understood that the action of the board of doctors that recently sat on the case was without warrant or law and hence the necessity for summoning the jury.

It is probable that the reprieve until next March is to give the people of Pima county an opportunity to select another sheriff.
